REPORT ON TITLE

Project Onyx — Onyx Point, Hartfield Distribution Park, Coventry CV3 4QR

Final — addressed to Calderfield Capital Partners Limited — 6 March 2026 — Ref SW/eo/CAL-0143

1. Introduction and scope

This report summarises the results of our investigation of title to the Property and our review of the four occupational leases, the searches and the Seller's replies to enquiries. It is addressed to Calderfield Capital Partners Limited (and any wholly-owned SPV nominated by it to take the transfer) and may not be relied upon by any other person without our written consent. This final report supersedes our draft report of 24 February 2026 and confirms that the outstanding matters identified in that draft have now been satisfactorily resolved.

2. The Property and price

The Property is the freehold investment known as Onyx Point comprising four distribution units (A–D) of approximately 184,500 sq ft together with the estate yard, 142 car parking spaces and the estate roads, registered at HM Land Registry under a single absolute freehold title number WM448210. The agreed purchase price is £18,650,000, exclusive of VAT, reflecting a net initial yield of approximately 6.67% on the passing rent of £1,329,000 per annum after standard purchaser's costs.

3. Title

Title is registered with absolute freehold title. The Property Register correctly describes the land by reference to the title plan. The Proprietorship Register shows Marrable Estates Limited as registered proprietor since 14 March 2016. No adverse entries, cautions or notices are registered against the title.

4. Incumbrances and the existing charge

The Charges Register contains rights of way and rights for services reserved by the 2016 estate transfer (necessary for the use of the Property), the four occupational leases noted against the title, and a registered legal charge dated 14 March 2016 in favour of Pennine Business Bank plc. The Seller's solicitors have provided a solicitor's undertaking to discharge the charge on completion and to forward the DS1 / evidence of electronic discharge as soon as available. We are satisfied with that undertaking and recommend that completion monies are not released until it is in place.

5. The Leases

The Property is let under four full repairing and insuring leases producing £1,329,000 per annum. The leases are on institutionally acceptable terms with five-yearly upward-only rent reviews. Unit D (Northbridge Trade Supplies Ltd) expires on 25 March 2028 and is the principal reversionary risk; that tenant is currently one month in arrears (£12,987.50). The contract provides for the arrears to be assigned to the Buyer, who will pursue recovery and account to the Seller. Rent deposits totalling £130,650 are held for Units B and D and will be apportioned to the Buyer on completion, with notices of assignment served on the tenants post-completion.

6. Searches

The local authority (CON29 and LLC1), drainage and water, environmental (Groundsure) and chancel searches have been received and are clear. The environmental search returned a low overall risk consistent with the Phase 1 report obtained at construction. No adverse planning entries, road schemes or other matters affecting the Property were disclosed.

7. VAT

The Property has been opted to tax with effect from 1 April 2016. The Buyer has made its own option to tax and will notify HMRC before completion so that the sale can be treated as a transfer of a going concern. On that basis no VAT is chargeable on the purchase price.

8. SDLT

Stamp Duty Land Tax of £922,000 will be payable on the purchase price on the non-residential slice basis. We will prepare and submit the SDLT return and pay the tax within 14 days of completion from cleared funds provided by you.

9. Conclusion and recommendation

Subject to (a) receipt of the lender's DS1 / electronic discharge of the Pennine Business Bank charge against the solicitor's undertaking already given, and (b) receipt of the signed rent authority letters on completion, we are satisfied that the Property has a good and marketable title suitable for an institutional investment acquisition. We recommend that you proceed to completion on 7 April 2026 on the agreed terms.
