REPORT ON TITLE TO THE LANDLORD

Project Vertex — grant of a new lease of the Third Floor, Vertex House, Leeds

Calderfield Capital Partners Limited | Whitfield Carter LLP | Final — 12 December 2025

1. Property

Building: Vertex House, 14–18 Calder Street, Leeds LS1 5QT. Premises to be let: the whole of the third floor, net internal area approximately 8,420 sq ft. Tenure: freehold, registered at HM Land Registry under title number WYK582140, registered proprietor Calderfield Capital Partners Limited, title absolute.

2. Ability to grant

We have reviewed official copies of the register and title plan dated 3 November 2025 and are satisfied that the company has good and marketable freehold title to the Building and is able to grant the proposed occupational lease of the third floor free from any impediment, subject to the conditions in section 5 below.

3. Charges

The charges register records a registered charge dated 14 June 2022 in favour of Clydesford Bank plc. The facility documentation permits the grant of arm's-length occupational leases reserving an open market rent without specific lender consent; the proposed lease falls within that permission, so no lender consent is required. We recommend that the managing agents notify Clydesford Bank of the completed letting.

4. Other matters affecting title

The Building is subject to the rights, covenants and matters contained in a transfer dated 2 February 2005, none of which restricts the grant. The Premises are vacant and we are aware of no overriding interests affecting the tenant's occupation. An updated local authority and drainage search obtained in October 2025 revealed nothing adverse to the letting or the permitted Class E use.

5. Conditions to completion

Completion is conditional on (a) board approval of the letting (obtained on 5 December 2025), (b) satisfactory tenant and guarantor references (obtained), (c) completion of the 1954 Act contracting-out procedure before the lease is entered into, and (d) receipt of the rent deposit of £124,195 plus VAT in cleared funds before the landlord's part of the lease is released.

6. Recommendation

We recommend that the company proceed to completion on the agreed terms (principal rent £248,390 per annum; 10-month rent-free period; tenant break at year 10 with a three-month break penalty; five-yearly upward-only reviews; £210,500 fit-out contribution) with a target completion date of 19 January 2026.
