CALDERWELL MOBILITY LIMITED

(the "Company")

MINUTES OF A MEETING OF THE BOARD OF DIRECTORS

held at Pioneer House, Trafford Park, Manchester on 16 October 2025 at 9.30 a.m.

Present

- Dr Daniel Calderwell (Chair) — Chief Executive Officer
- Sophie Lindqvist — Chief Technology Officer
- Nina Brandt — Chief Financial Officer

In attendance

- Raj Mehta — Head of Vehicle Safety & Homologation
- Sarah Whitfield and Tom Gallagher — Whitfield Carter LLP (by invitation, for items 1–4)

1. Quorum and conflicts

The Chair confirmed that a quorum was present and that the meeting was duly convened. No director declared any interest in the matters to be discussed.

2. Background

The Chair reported on the suspected safety-related defect affecting the regenerative braking control software (BCM-FW 4.2.x) of the CV-7, as set out in the Internal Investigation Report prepared by Whitfield Carter LLP dated 13 October 2025, which had been circulated. The CTO summarised the engineering root cause and confirmed that a validated corrective build (4.3.0) was available.

3. Legal advice

Whitfield Carter LLP advised the Board on the Company's obligations under the GB vehicle safety and product safety regime, on the directors' duties engaged, and on the Company's regulatory and civil liability exposure, as more fully set out in the firm's Advice Note. The firm advised that the matter should be treated as a safety-related defect requiring prompt notification to the DVSA, and that a proactive voluntary recall was in the Company's and the directors' best interests.

4. Resolutions

After discussion, and having regard to the directors' duties under sections 172 and 174 of the Companies Act 2006 and to the legal advice received, it was resolved that:

1. the suspected defect be treated as a safety-related defect and that the Company notify the DVSA Vehicle Safety Branch without delay, in the form prepared by Whitfield Carter LLP;
2. the Company conduct a voluntary safety recall of the affected CV-7 vehicles to deploy corrective firmware build 4.3.0, in accordance with the recall action plan presented to the meeting (as the same may be refined in cooperation with the DVSA);

3. the Company notify its product liability and recall-expense insurers of the matter within the policy notification period;
4. the CEO, the CTO and the Head of Vehicle Safety & Homologation, or any of them, be authorised to take all steps and execute all documents necessary or desirable to give effect to the recall and the notification; and
5. Whitfield Carter LLP be instructed to manage the regulatory engagement and to report to the Board monthly on recall progress and completion rates.

5. Close

There being no further business, the Chair declared the meeting closed at 10.25 a.m.
