LEGAL DUE DILIGENCE REPORT

Project Tempest — proposed Series B investment in Calderwell Mobility Limited

Prepared for	Marisdale Growth Partners LLP (Lead Investor)
Prepared by	Whitfield Carter LLP (for the Company) — vendor-side summary
Date	11 December 2025
Status	Final — subject to the assumptions and limitations in section 1

1. Scope, assumptions and limitations

This report summarises the principal findings of the legal due diligence exercise on Calderwell Mobility Limited (the "Company") carried out between 3 November and 10 December 2025. It is based on the documents made available in the data room (index at Appendix A of the Disclosure Bundle) and on management's replies to our enquiries. It addresses English law only. It does not cover tax (Marlow Tax & Advisory), commercial or technical matters, or the financial model. It is a summary only; reliance should be placed on the underlying documents and the warranties and disclosures in the transaction documents.

2. Corporate

The Company is validly incorporated (no. 12880417) and in good standing. The statutory registers are materially complete. The current issued capital comprises 8,400,000 Ordinary Shares, 1,400,000 Seed Preferred Shares and 2,800,000 Series A Preferred Shares; a 1,400,000-share option pool is reserved. The cap table reconciles to the registers. On completion the Company will adopt amended articles creating the Series B class. No material defects in past allotments were identified.

3. Key findings and risk ratings

Area	Finding	Risk	Action / mitigation
IP — patents	Lead patent application (GB2410882.1, motor controller) under examination; third-party observations filed May 2025.	Medium	Hatcham IP to respond by 20 Jan 2026; specification amended to address two objections.
IP — infringement	Northstar Cell Technologies asserted possible firmware overlap (Jun 2025); claim not pursued.	Medium	Disclosed; no further action; monitor.
IP assignment	Two early contractors' assignments not located.	Low	Confirmatory assignments to be obtained as a post-completion undertaking.
Commercial	Largest customer (Wexbourne pilot) terminable on 90 days' notice; Reyland supply agreement contains change-of-control consent.	Low	Reyland supply agreement to be reviewed; consent to be obtained.
Disputes	Former contractor intimated ~£38k unpaid-invoice claim; disputed.	Low	Disclosed; provision not required per management.
Tax	HMRC enquiry open into FY2023 R&D claim.	Medium	Advisers expect no material adjustment; tax warranties + indemnity.
Finance	£500k Clydesford RCF (drawn £180k) secured by debenture.	Low	Remains in place; within consent thresholds.
Data protection	ICO-registered; reasonable measures; no material breach in 24 months.	Low	Warranty 3.4 given.

4. Conditions and recommendations

We recommend that completion be conditional on adoption of the amended Articles, delivery of the Disclosure Letter, and receipt of the board and shareholder approvals. The following are recommended as post-completion undertakings: (i) confirmatory IP assignments from the two early contractors; (ii) service of the change-of-control notice under the Reyland supply agreement; and (iii) appointment of the independent non-executive director within 90 days. Subject to those points and to the warranties and disclosures, we did not identify any matter that should prevent the Investors from proceeding.
