RIDDOR 2013 — Report of a Specified Injury

Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013, reg. 4 — Form F2508 (record extract)

HSE acknowledgement ref	RID-2026-0488-7741
Date submitted	18 March 2026, 17:52
Reporting organisation	Calverton Industries Limited
Site	Birmingham Road, Wednesbury WS10 7JB
Responsible person	Neil Tasker, SHEQ Manager
Kind of report	Specified injury to a worker (reg. 4)

Injured person

Name	Wayne Tully
Status	Employee — setter/operator
Injury	Crush and degloving injury to right hand; partial amputation of three fingers
Specified injury category	Amputation of a finger / part of a finger (Sch.1, para. 1(e))
Taken to hospital	Yes — Sandwell General Hospital

Details of the incident

At approximately 14:20 on 18 March 2026 the injured person was clearing a mis-rolled component from thread-rolling cell CR-TR-12 (Excelon EX-450). He opened the cell guard and reached toward the rolling dies, which were still in motion. His glove contacted a die and his hand was drawn into the nip point. A colleague operated the emergency stop within approximately two to three seconds. The cell has been isolated and taken out of service.

Apparent cause / equipment

Access to dangerous moving parts through a guard whose interlock had been defeated. Work equipment: Excelon EX-450 thread-rolling machine, asset CR-TR-12, installed 2015.

This is a record extract retained on the matter file. The statutory report was submitted via the HSE online reporting service.
