Section 4 — Type of claim

- I was unfairly dismissed (including constructive dismissal).
- I was discriminated against on the grounds of age.
- I was subjected to a detriment and/or dismissed for making a protected disclosure (whistleblowing).

Section 5 — Details of the claim

1. The Claimant was employed by the Respondent as Chief Commercial Officer from 1 July 2019. Until late 2024 his performance was consistently rated as strong, including commendation at the September 2024 board review for delivering 11% growth in the distribution division.

2. Following the appointment of a new Chief Executive in October 2024, the Claimant was progressively excluded from commercial decisions, removed from the senior leadership distribution list, and had two of his three direct reports reassigned without consultation.

3. On 18 December 2024 the Claimant was told his role was "under review" and might be made redundant by a restructuring. The Claimant contends that the restructuring was a sham and that an external, younger candidate had already been approached to perform his role under a different title.

4. The Claimant relies on comments made by the Chief Executive, including that the business "needed a different kind of energy" and that the Claimant should "think about his future", as evidence of direct age discrimination contrary to section 13 of the Equality Act 2010. The Claimant is 57 years old.

5. In November 2024 the Claimant raised concerns about the recording of certain customer rebate arrangements. He contends this was a protected disclosure and that his subsequent treatment amounted to a detriment and (if dismissed) an automatically unfair dismissal under the Employment Rights Act 1996.

6. The Claimant raised a formal grievance on 7 February 2025, which has not been fairly resolved. The Claimant seeks compensation for unfair dismissal, compensation (including injury to feelings) for age discrimination, and compensation for whistleblowing detriment, together with interest. Full particulars and a schedule of loss will follow.
