3. PROJECT INDIGO — AERELON LICENCE AND COLLABORATION

The Chair introduced the proposed Technology Licence and Development Collaboration Agreement with Aerelon Aviation Group plc, under which the Company would grant Aerelon an exclusive, field-limited licence of the CarbonLedger platform and the Licensed Patents for the commercial-aviation field, together with a development collaboration. Ms Whitfield summarised the principal terms: an upfront fee of £4,500,000, development milestones of up to £18,000,000, and tiered running royalties (5/8/11%) subject to a minimum annual royalty of £1,050,000 from Year 3. The Board reviewed the near-final form of the Agreement, the Disclosure Letter, the Patent Schedule and the deed of assignment in respect of CL-PAT-004.

The Board discussed: (a) the field limitation and its consistency with the existing Stratton Energy SaaS arrangement; (b) the freedom-to-operate position on the SAF-accounting module; (c) the deed of release to be obtained from Ravensworth Ventures LLP in respect of the Licensed Patents; and (d) the cap on the IP indemnity at £13,500,000. Ms Chowdhury confirmed, on behalf of Ravensworth, that the investor consent and the deed of release would be provided prior to signing.

4. RESOLUTIONS

IT WAS RESOLVED that: (i) the terms of the Agreement, the Disclosure Letter and the deed of assignment be and are approved; (ii) the entry by the Company into the Agreement is in the best interests of the Company and likely to promote its success for the benefit of its members as a whole; (iii) any one director be authorised to execute the Agreement and the ancillary documents on behalf of the Company, and the General Counsel be authorised to agree non-material amendments; and (iv) the appropriate filings and recordals be made following completion.
