PROJECT BEACON — LEGAL DUE DILIGENCE REPORT

Proposed acquisition of Meadowbank Foods Limited by Beacon Bidco Limited

Prepared for Crestview Capital — Final, 22 October 2025 — STRICTLY PRIVATE & CONFIDENTIAL / LEGALLY PRIVILEGED

1. EXECUTIVE SUMMARY

This report summarises the findings of our legal due diligence review of Meadowbank Foods Limited (the "Company") carried out between 1 September and 20 October 2025 on the basis of the documents made available in the Datasite data room and the Company's replies to our enquiries. Our review covered corporate, commercial, employment, real property, intellectual property and IT, regulatory (food safety), litigation and a high-level tax overview. Overall the Company is well run and its corporate records are in good order. We have identified a small number of issues that warrant specific contractual protection in the SPA, none of which in our view is a deal-breaker. The principal items requiring attention are: (i) the change-of-control right in the Halcyon Retail Group supply contract (now addressed by a customer consent letter); (ii) an outstanding HMRC enquiry into an R&D; tax-credit claim; (iii) the timing of the BRCGS food-safety certificate renewal; and (iv) an intimated but unissued employment claim. Recommended protections are set out at section 9.

2. CORPORATE

The Company is a private company limited by shares incorporated in England and Wales (no. 04918732) on 14 March 2003. Its issued share capital is £1,000,000 divided into 1,000,000 ordinary shares of £1.00 each, held as to 65% by Geoffrey Marwick, 30% by the Marwick Family Trust and 5% by Susan Marwick. The statutory registers are complete and up to date and we have seen no evidence of any Encumbrance over the Shares other than as disclosed. The articles of association contain pre-emption rights on transfer which will be waived at Completion. There are no subsisting shareholder agreements.

3. ACCOUNTS AND FINANCIAL

Audited accounts for the three years to 31 December 2024 show turnover growing from £41.2m to £49.8m and adjusted EBITDA of approximately £6.1m in FY2024. We are not accountants and our comments are confined to legal matters arising from the financial documents; financial due diligence has been carried out separately by Marlow Tax & Advisory Ltd. We note the Company's reliance on its top five customers (approximately 58% of turnover) which is reflected in the customer-concentration risk discussed at section 4.

4. COMMERCIAL CONTRACTS

We reviewed the Company's material contracts. The supply agreement with Halcyon Retail Group (its largest customer, approximately 31% of turnover) contains a change-of-control provision entitling Halcyon to terminate on 90 days' notice in the event of a change of control of the Company. We recommended, and the Company has obtained, a written confirmation from Halcyon that it will not exercise that right in connection with the Transaction. The Company's other principal customer and supplier contracts are on customary terms and we identified no other material change-of-control or termination triggers.

5. EMPLOYMENT

The Company employs 214 staff. Senior employees are on contracts containing standard restrictive covenants; three are on enhanced six-month notice periods. The Company operates a defined-contribution auto-enrolment pension scheme only; there is no defined-benefit liability. A former employee, Mr A. Doran, has intimated an unfair-dismissal claim which has not been issued; the Company's assessment is that the claim has limited prospects. We recommend a specific indemnity in respect of that matter (see section 9).

6. REAL PROPERTY

The Company operates from a single freehold production and distribution site at Unit 7, Calder Park, Wakefield (title number WYK418204), together with a short-term leasehold cold-store unit nearby. We reviewed official copies of the freehold title and identified no adverse entries other than a standard utilities easement. The leasehold is held on a five-year lease expiring in 2027 with a tenant-only break in 2026.

7. REGULATORY — FOOD SAFETY

The Company is registered with the relevant food authority and holds current BRCGS certification (grade AA), which expires on 14 February 2026; the renewal audit is scheduled for January 2026. There has been no product recall or withdrawal in the 36 months reviewed. A single labelling error in May 2025 was resolved without recall. A minor environmental-permit variation relating to refrigerant handling is pending. We recommend the SPA include a warranty bring-down confirming maintenance of certification through to Completion.

8. LITIGATION AND TAX

Other than the intimated employment matter noted above, the Company is not engaged in any litigation. On tax, HMRC has an open enquiry into the Company's R&D; tax-credit claim for the period ended 31 December 2023; the Company's advisers consider the claim well supported, but given the uncertainty we recommend a specific tax indemnity ring-fencing this matter outside the general tax covenant limitations.

9. RECOMMENDED PROTECTIONS

1 A specific indemnity in respect of the HMRC R&D; enquiry, uncapped by the de minimis and basket thresholds.

2 A specific indemnity in respect of the intimated Doran employment claim.

3 A warranty (with bring-down at Completion) confirming the Halcyon consent remains in force and that BRCGS certification is maintained.

4 A completion-accounts mechanism to capture the retention-of-title and hire-purchase liabilities within Net Debt.

5 Retention of £2,000,000 for 18 months as security for warranty and indemnity claims.

This report is addressed to Crestview Capital and Beacon Bidco Limited for the purposes of the Transaction only and may not be relied upon by any other person without our prior written consent.
