REPORT ON SEARCH RESULTS

Calderdale House, 14–18 Sefton Street, Manchester M3 4AP

Whitfield Carter LLP for Ellwood Estates Partners Limited · 18 February 2025

1. Searches obtained

Search	Provider	Date	Outcome
Local Land Charges (LLC1)	Manchester City Council	12 Feb 2025	No adverse entries
CON29 Standard Enquiries	Manchester City Council	12 Feb 2025	Clear — see notes
Drainage & Water (CommercialDW)	United Utilities	13 Feb 2025	Connected; shared SW connection noted
Environmental (Groundsure Avista)	Groundsure	14 Feb 2025	Passed — low risk
Chancel Repair Screen	Groundsure	14 Feb 2025	No liability identified
Flood (within environmental report)	Groundsure	14 Feb 2025	Low flood risk

2. CON29 — points of note

- Roads abutting the Property (Sefton Street) are publicly adopted and maintainable at public expense.
- No entries for planning enforcement, stop or breach of condition notices.
- No road-widening, new road or compulsory purchase proposals affecting the Property.
- Building Control records confirm completion certificate for the 2017 refurbishment.

3. Drainage & water

Foul drainage and water are connected to the public network operated by United Utilities. A private surface-water drain from the lower-ground car park crosses into the adjoining property at 12 Sefton Street. This reflects the long-standing arrangement recorded in the deed of easement dated 3 May 1999 and is not considered to affect value or insurability.

4. Environmental

The Groundsure environmental report returned a ‘Passed’ overall risk rating. No current or historic land uses likely to give rise to contamination were identified on or adjacent to the Property; the site has been in commercial/office use throughout the period reviewed. No further environmental investigation is recommended.

5. Conclusion

None of the search results discloses any matter that should prevent the acquisition or that materially affects the value of the Property. The shared surface-water connection is the only item of note and is adequately regulated by the 1999 easement.
