2.2 Address	Athena Park, Ridgeway Road, Bristol BS16 1QY
3.1 ACAS early conciliation no.	R555512/25/68
4.1 Employment start date	1 April 2019
4.2 Employment end date	28 February 2025 (anticipated)
4.3 Job title	Director of Quality
5.1 Claim type	Detriment for making a protected disclosure (ERA 1996 s.47B); automatically unfair dismissal (ERA 1996 s.103A)

8. Details of claim

The Claimant was employed as Director of Quality. Between October and December 2024 she made protected disclosures regarding the integrity of cure-cycle conformance data in the first-article certification pack for composite shipsets supplied to Caldera Mobility Systems plc, which in her professional opinion disclosed a breach of the Respondent's airworthiness obligations and a potential safety concern. Following those disclosures she was excluded from programme governance, removed from the certification distribution, issued with an unwarranted note of concern and told her role was under review. She contends these were detriments done on the ground of her disclosures and, in so far as her employment is terminated by reason of them, that any such dismissal is automatically unfair. Full particulars are set out in the attached Grounds. The Claimant seeks compensation (uncapped), a declaration and a recommendation.

This claim is lodged protectively to preserve the Claimant's position while settlement discussions continue; the parties anticipate it will be withdrawn on completion of a settlement agreement.
