MINUTES of a meeting of the Board of Directors

Held at: Hartwell House, 18 Mortimer Street, London W1T 3JH (and by video-conference)

Date and time: 11 November 2025, 14:00

Present: Dr Helena Vance (Chair, CEO); Gregory Mercer (CFO); Dr Stephen Okoro (CSO); Naomi Adeyemi (General Counsel & Company Secretary); two non-executive directors.

In attendance: Sarah Whitfield (Whitfield Carter LLP) for items 3–5.

1. Quorum and Notice

The Chair confirmed that due notice had been given and that a quorum was present. The meeting proceeded to business.

2. Declarations of Interest

No director declared any interest in the matters to be considered requiring recusal under the Company's articles.

3. Project Larkspur — Exclusive Licence of the CAL-218 Programme

3.1 The Chair introduced the proposed in-licensing of Calbryn Therapeutics Limited's pre-clinical KRAS G12D oncology programme (CAL-218) under an exclusive worldwide licence and research collaboration ("Project Larkspur").

3.2 Dr Okoro summarised the scientific rationale and the conclusions of the IP and freedom-to-operate due diligence carried out by Hartington IP, noting the third-party observation against the CAL-218-A EP application and management's view that it did not undermine the core claims.

3.3 Mr Mercer presented the deal economics: an upfront payment of £8,000,000, an 18-month option over CAL-301 (£3,000,000 exercise fee), aggregate milestones of up to £62,000,000, and tiered royalties of 7% to 12% on net sales. Research collaboration funding was capped at £2,400,000 over two years.

3.4 Ms Whitfield summarised the key legal terms of the final form of the Exclusive Licence and Research Collaboration Agreement, including the liability provisions (an aggregate cap by reference to amounts paid in the preceding 36 months, with an £18,000,000 uplift for breach of the ownership and no-conflicting-grant warranties), the diligence obligation (IND/CTA acceptance within 39 months), and the governance arrangements through the Joint Steering Committee.

IT WAS RESOLVED that:
