HARTWELL PHARMA LIMITED

(Company number 07731220) (the “Company”)

MINUTES of a meeting of the board of directors

held at Gunnersbury House, 1 Chapel Lane, Cambridge and by video-conference

on 28 January 2026 at 10.00 a.m.

Present: Dr Helena Vance (Chief Executive Officer, Chair); Gregory Mercer (Chief Financial Officer); Dr Stephen Okoro (Chief Scientific Officer); Naomi Adeyemi (General Counsel & Company Secretary); and Ms Eleanor Whitmore (Non-Executive Director).

In attendance: Sarah Whitfield and James Osei of Whitfield Carter LLP (by invitation, for items 3–5).

1. QUORUM AND NOTICE

The Chair noted that a quorum was present and that the meeting had been duly convened. The directors confirmed they had received the board pack circulated on 23 January 2026, including the near-final Patent and Know-How Licence Agreement relating to the HRX-218 compound family (Project Lyra), the negotiation summary and the term sheet.

2. DIRECTORS’ INTERESTS

Each director confirmed that, having considered sections 177 and 182 of the Companies Act 2006, they had no interest in the proposed transaction requiring declaration, save as previously notified.

3. PROJECT LYRA — THE LICENCE

The Chair invited Dr Okoro to summarise the scientific rationale for in-licensing the HRX-218 KRAS G12C inhibitor family from Calderbrook Oncology Limited. Ms Whitfield then summarised the principal terms of the Licence, in particular: an exclusive, worldwide licence in the field of human oncology; an upfront fee of £6,000,000; development milestones of up to £44,000,000 and sales milestones of up to £105,000,000; and tiered royalties of 8% / 11% / 14% on net sales.

The board noted that, following negotiation, the licensor’s liability under the agreement is capped at the greater of £10,000,000 or the sums paid in the preceding 12 months, save that liability for breach of the core intellectual-property warranties and confidentiality is uncapped; and that the company has accepted a diligence long-stop of 30 June 2028 for initiation of the first Phase II trial.

Mr Mercer confirmed that the upfront fee and near-term milestones were provided for in the approved budget and that the company had sufficient cash resources, supplemented by the Series C proceeds, to meet them.

4. DUE DILIGENCE

The board received and noted the legal and patent due-diligence report prepared by Whitfield Carter LLP and Hartington IP, including the freedom-to-operate analysis and the confirmation that the Aldridge Seed charge over the licensed patents would be released at completion. The directors were satisfied that the diligence findings, as qualified by the Disclosure Schedule, did not give rise to any matter that should prevent the company entering into the Licence.

5. RESOLUTIONS

IT WAS RESOLVED that:

(a) the terms of the Patent and Know-How Licence Agreement substantially in the form produced to the meeting be and are hereby approved, with such non-material amendments as any director may agree;

(b) the entry by the Company into the Licence is in the best interests of the Company and is likely to promote its success for the benefit of its members as a whole;

(c) any one director, or the Company Secretary, be and is hereby authorised to sign and deliver the Licence and any ancillary documents on behalf of the Company, including by electronic signature; and

(d) the payment of the upfront fee of £6,000,000 within ten business days of signing be and is hereby approved.

6. CLOSE

There being no further business, the Chair declared the meeting closed at 10.42 a.m.

……

Dr Helena Vance — Chair

Dated: 28 January 2026
